A close-up, low-angle shot of the control panel of a Thor Kitchen outdoor appliance, likely a grill or smoker. The panel is black and features a row of seven large, black, textured knobs. The knobs are arranged from left to right, with the first knob on the far left and the last knob on the far right. The knobs are illuminated from below by a row of small, blue LED lights. The knobs have various settings and labels: the first knob has a scale from 300 to 450; the second knob has 'LOW' and 'SIM' labels; the third knob has 'LOW' and 'SIM' labels; the fourth knob has 'LOW' and 'SIM' labels; the fifth knob has 'LOW' and 'SIM' labels; the sixth knob has 'LOW' and 'SIM' labels; and the seventh knob has 'LOW' and 'SIM' labels. Below the knobs are several small, white icons: a power button, a light button, a convection fan button, and a temperature control button. The temperature control button has a scale from 300 to 450. The light and convection fan buttons are circular and have a blue ring around them. The text 'Light' and 'Convection Fan' is printed below the buttons. The overall lighting is dramatic, with the blue LEDs providing a strong contrast against the black panel.
